

Pear Comprehensive Travel Health Educator Program

This program, developed by Pear Healthcare Solutions Inc. and available at healthlearning.ca, was created with the goal of helping pharmacists and other healthcare professionals prepare to challenge the International Society of Travel Medicine (ISTM) examination to achieve the Certificate in Travel Health™ (CTH®) designation. The Canadian Council on Continuing Education in Pharmacy (CCCEP) has accredited this 37-module program for a total of 18.5 CEUs (continuing education units).

The program was developed in consideration of the ISTM Body of Knowledge for the Practice of Travel Medicine, and the content is matched to these competencies. Content is derived from international and Canadian guidelines and organizations, such as the World Health Organization, United States Centers for Disease Control and Prevention, and the Canadian Immunization Guide. The Comprehensive Travel Health Educator Program will provide you with a **solid foundation** to challenge the ISTM examination through completion of brief online modules of approximately 30 minutes in length.

For more information about topics included in this program, visit healthlearning.ca.

As a member of CPCAC, you are eligible for a 20% discount on the tuition for the Comprehensive Travel Health Educator Program. CPCAC will provide specific codes for this discount.
